## EDUCATION

Sep 2020 - Now

### INFOMATION TECHNOLOGY

VIETNAM - KOREA UNIVERSITY OF INFORMATION AND COMMUNICATION TECHNOLOGY

At VKU, I am studying in an information technology engineer training program. In this program, there are subjects related to the job that I want to apply for, which can be mentioned: Java object-oriented programming, C programming, Android programming, and Web programming,...

## SKILLS

### Front End

- HTML,CSS,JS,ReactJS,MaterialUI,TailwindCSS,Redux

### Back End

- NodeJs,MongoDB

### Tools

- Github

### English

- I can reading and understand document in English of several programming languages such as:Javascript, reactJs ,PHP, Laravel framework,...
- I can comunicate and writing in English at amount of good level.

## OBJECTIVE AND WORK EXPERIENCE

Working in professional environment and being able to maximize myself. My goals is in the distant future i'll become a Full-Stack developer.  
Although I don't have much practical experience. But i think i have accumulated a good amount of experience while working in my own personal projects

## **PRIZE**

**June 2022**

Top 3 Best Web at MindxSchool

## **CARRER GOALS**

Because I don't have much work experience, I want to join a professional working environment to challenge myself and find opportunities for personal development.

## **HOBBY**

I like to read books in my spare time, I usually read books related to motivation or social relations. My favorite book is Canh Thien's book "Don't choose leisurely when you are young". Besides, I also learn more about information technology, doing some small projects.
